

## Course submission

Do you offer a training, course, or education program in science communication in Switzerland or nearby? We'd be happy to share it on our platform!

We welcome all SciComm-related courses taking place in Switzerland. Courses from neighboring countries may also be included, provided they are accessible and relevant to participants based in Switzerland. If your organization is based outside Switzerland, please contact us before submitting your course.

You can fill in the form either in the course language or in English. Please note that all standard content on the website is available in English only.

Please send the completed form to [flurin.beuggert@science-et-cite.ch](mailto:flurin.beuggert@science-et-cite.ch).
